

Environmental Policy

We will ensure that our activities are conducted in accordance with sound environmental practices.

We will achieve this by:

- Being active within the industry and positively influencing where we can.
- Reducing the creation of waste by the adoption of improved operating practices and by the re-cycling / reusing of materials whenever practical.
- Ensuring all waste is disposed of in a safe and responsible manner.
- Monitoring development of new products and processes that have an improved performance regarding their impact on the environment and where practicable and beneficial make use of such developments.
- Monitoring the production, collection, storage and disposal of waste materials.
- Not only complying with but where possible exceeding environmental legislation.
- Training our staff to ensure full awareness of our commitment to the environment.
- To raise our Customers' awareness of the benefits of latest developments and promote products that have a positive impact on environmental issues.
- Regularly reviewing procedures to ensure that we maintain an effective environmental policy.

Our work includes use of refrigerants. Refrigerants will be recovered, recycled, reused or disposed in a responsible manner. To ensure minimum environmental impact and the highest standards operatives are trained to City & Guilds 2079 with ongoing manufacturer training.

The company is registered REFCOM Elite and we are registered with the Environmental agency CBDU145158.

We aim to promote among our staff, suppliers, subcontractors and customers an understanding of environmental issues in the context of our business. Our collective task is to ensure that we continually improve the environmental impact of our total global activities.

By this policy AC Solutions Group Ltd recognises its corporate responsibility towards protection of the environment, and issues this statement as a commitment of both management and employees to minimising the environmental impact of its operation's.
